Deacon Dana will be the interim Archbishop Representative.

CYO Basketball enrollment numbers are higher than last year. Gym availability was tight due to the increased participation but public school rental was not required to carry the load. There was an in season cancellation at SJA which required public school rental. CYO continues to remind DSMs to make sure CYO is considered by parish staff as they assign their gyms to the various functions of the parish.

To date, the High School Basketball Program has experienced fewer major incidents which compliments the participation changes we made. There have been the typical ejections, roster violations but overall a much better environment for the players, officials and the CYO staff.

WYCO priests at their meeting discussed CYO support of the parishes within WYCO. The Wyco CYO Committee is making progress with increased participation.

CYO Associates, individuals representing CYO at sports venues, have been visiting gyms and providing recommendations to the CYO staff on issues they experience at our parish facilities. This program has been very successful and productive in making changes to provide a better experience for CYO athletes and families.

Laura has completed the 1099s and will complete the necessary items prior to the deadline. 1099s were sent to 110 individuals.

WYCO initiatives were discussed.
